HUCH BETTER TONE IN LONDON MARKET.

CLOSE WAS FIRM IN AMERI-

CAN STOCKS.

Failure of Marquand & Co. Had Been Discounted-Close Was Distinctly Strong in All Departments.

New York, June 28.-There was a much better feeling in the London market in all departments to-day, due to reassuring re-ports from Germany and the clearing of the financial atmosphere on this side. The close was firm in American stocks, most of which gained ground on the day. Money was a shade harder in London, and there was a lower tendency in exchange in Paris

which gained ground on the day. Money was a shade harder in London, and there was a lower tendency in exchange in Paris and Berlin. The settlement was concluded satisfactorily to-day.

In the local market the failure of Henry Marquand & Co. was announced at the opening of business, but from the action of the active stocks had evidently been fully discounted. Some 19,000 shares were brought under the rule on this account, creating a rather false market and inducing a disposition to hold off until such purchases were faished. There was, however, very fair urying in moderate volume in the Gould locks, and Atchison common was etimulated by a purchase of some 15,000 shares for London. The traction stocks were firmer, helped by reports of very large earnings on B. R. T. and builtish talk by Manhattan insiders.

Bugar gained ground on rumors of an issue of new stock against the purchase of refineries with concomitant rights to stock-holders. The steel issues were remarkably firm considering the character of the market and it seems to be the very general belief that the dividend on both common and preferred will be acted upon on July 2. The Granger stocks benefited by encouraging crop reports indicating that the winter wheat would do very fairly and the prospects for spring wheat were the very brightest. The hard coalers were somewhat neglected, but a very few purchases were sufficient to keep Eries strong.

It seems to be the general feeling around the street that the market is all the better for knowing the worst about the two institutions whose difficulties have affected the entire week's trading. In neither case does Wall street seem to have suffered any sovere losses, and as the clearing passed off satisfactorily it is claimed that minor houses involved have been well protected. It seems abeolutely certain that J. P. Morgan has soid his holdings in Chicago, indications point to an encourasing bank statement. The consolidated tobacco marger has been successfully accomplished and nearly 30 per cent of both American

partments, and bullish sentiment was considerably encouraged by the absence of any confirmation of rumors of further financial trouble. The market seemed to have been a good deal oversold on talk of this kind, and there was extensive covering of shorts, especially in the grangers and hard-coal stocks. The close was generally firm, rather under the best of the dar. Money was easier at 7 to 8.

BOND SALES AT NEW YORK. REPUBLIC SPECIAL.

HEAVY DEALINGS

ON LOCAL EXCHANGE. WILD AND LARGELY HIGHER

Little Changed-Trust Stocks

The breaking of price records on the St. Louis Stock Exchange, which has been a daily feature for a week or more, and apwith the members, was contin day, and another widly excited and higher market was experienced. The market was at a fever heat the greater part of the time, largely higher prices in a number of instances were paid, though the advances as a rule were not to be compared with some that have taken place during the week. The dealings however, were by far the heavlest of the season, sales footing up 2,273 shares of stock and one bond, which beats shares of stock and one bond, which beats all previous records of the half-hour's sension. Of this amount nearly 1,600 shares were in United Railways, which had the call yesterday and were pretty much the whole thing, so very large were orders, so heavy the trading and high the prices paid. No sooner were brokers assumbled and the market opened, when those present got right down to business and until most of the orders were satisfied trading was fast and furious, operations were about equally divided between the preferred and Transit stock, both of which were wanted and wanted as badly that the market started off without advance, which was well-maintained to the close. The initial sale was in Transit at \$7.50, which was I's points higher than it closed the day before and at which \$50 shares sold during the day, while \$20 shares brought \$2.50 on a soft spot, and at close was freely bid and

which brought the top price of the day, \$81.50, which was bid at cose and \$2 askeu. Next to syndicate railways, Missouri-Edisons came in for most attention from brokers, and was traded in to the extent of 500 shares, all of which was common stock, and brought \$20.50 and \$21, being an advance since the day before of 24 points. The market for this stock heid strong to the close, when \$21 was freely bid, and no stock was offered for less than \$21.50. The exciting feature of this market was the selling to a standstill of two well-known brokers, who appeared to be trying to run away with the market, but who were stopped in their mad career by Cambell's young man, who loaded them up at \$21 and \$20.50. This checked the buying fever for a time, but it was afterwarus resumed, and all late trading was at the top price. A very strong market was had for the preferred stock, which was up 3 points at one time at \$35 bid, but as \$20 was asked, no sales were made. This bid was withdrawn later, and at close there was a seller at \$22.50. The bonds were wanted, but only in a quet way, and one sold at \$55, at which more were offered late and \$94.50 bid.

Trust stocks the last two days have acted

and there were no bide for either, which was something out of the ordinary.

Yesterday was a sort of off day in local bank stocks, the dealings being unusually light and the interest taken small. National Bank of Commerce led them all in point of strength and demand, but at the same time showed no improvement over the previous day's prices, a sale of 20 shares being made at 350,25, which was followed later by one of 25 shares at 250, while, at the close, 250,20 was bid and 350 was saked. Continental National was a point stronger at 223 bid and 223 asked, but Third National cachibited softness, and after selling to the extent of 21 shares at \$225,50 and \$227,50 saked. Boatmen's was quoted in pount off, at \$30,750 bid. State National was \$150 bid and \$31,50 saked, and Merchants'-Laclede National was a point stronger, at \$22 bid. Fourth National, which was a feature of the bank stock market the day before, was not even mentioned.

There was a Gemand for Westingheyse Automatic Air and Steam Coupler around \$4.25 and \$51,50, and there were sales of 25 shares at the former and 39 shares at the latter. The close was at \$61.25 bid and \$54.75 asked.

MARKET. All Other Securities Quiet and but

Rather Slow.

the preferred stock were being executed and ings 15,212, 25; gs 36,02,25; cxperienced, though the trading was not to be compared with that in Transit, the total sales amounting to only 25 shares, but which brought the top price of the day, s 22,213,23; 4.86 6 days;

were offered late and 194.50 bid.

Trust stocks the last two days have acted like they had had their day and were preparing to take a rest. Orders yesterday were few, and there was not the urgency shown to execute them as has been the case heretofore. Less than the urual number of quotations were made, and in several instances the weskness developed the day before came to the surface. Mississippl Valley was about the best sustained, but there were no sales until just as the market was breaking up, when 25 shares sold at 1398. The only other trading was in Lincoln, which still continues to be a prime favorite, and which sold a point higher to the extent of 199 shares at 256, closing with that bid and 1357 asked. Mercantile was easier at 3358 sellers, and Commonwealth was 2 points off at 2390 sellers, and there were no bids for either, which was something out of the ordinary.

Yesterday was a sort of off day in local

"Fortune Never Raps at Man's Door Twice."

ONLY A FEW DAYS LEFT To Buy GLADYS OIL STOCK at 10c Per Share.

July 3d is Positively the Last Day, And it looks now as if our St. Louis allotment will be sold out before that.
Our first well was started June 20, on Spindle Top Heights, in the center of proven Oil Field, and our expert driller says that by July 4 we can be loo

for a Gusher.

We are sure of a Gusher, because we are surrounded by Gushers and our Land is absolutely proven.

The Heywood No. 2, capacity 80,000 barrels daily, and estimated worth over fourteen million per year, is 60 yards to our west; the Beatty Gusher, capacity 70,000 barrels daily, estimated worth over twelve million per year, is only 45 yards to our north, and the Hogg-Swayne well is 150 yards to our east. So you see we are surrounded by three of the greatest Oil Spouters in the world.

The Gladys Oil Company also owns five other tracts that so surround the Big Gushers that no matter which directions the Oil Veins lead out we are sure to find them.

Stock is selling rapidly, and we advise you that if you want to get in do

The Gladys Oil Company's Lands are all owned in Fee simple, no le no royalties, and is considered one of the very best Beaumont Companies For further particulars call or address:

ARTHUR A. MERMOD & CO., Fiscal Agents,

517 Mermod-Jaccard Bldg., St. Louis, Mo.

Remit by draft, postal or express money order. Galveston, Tex., notified, will secure stock for same.

The Year's Coinage.

Washington, June 25.—The forthcoming ciament of the coinage executed at the mints the United States for the fixed year end as its 24, 1901, will show the total coinage to have be \$155.267.731, as follows: Gold. 195.067.715; silve \$25,265.695; minor coins, \$1.09,265.
